Head Teacher: Mrs Claire Ratley BA (Hons), MA, NPQH

---

Dear parents,

We are writing to let you know that Suffolk Highways are moving the current Puffin crossing further down the road nearer to the Church Institute. The Road Safety Team have been involved in discussions surrounding this. This will mean that anyone walking to school from East Barton direction, will need to cross at the new Pelican crossing and cut through the pathway next to the Church Institute in order to walk to school. It is really important that children and families follow this route as there is no footpath down on the left hand side of School Road, so this will be the safest route. We will write to tell you more when we know more details.

We have decided to have a competition over the summer holidays for the whole family. We are asking you to design a sign which will show people where to walk to school. The winning entry will be scanned and made into the **actual** sign that will show the way on the main road (A134) through Great Barton. We would like you to be as creative as possible and involve the whole family. We will be inviting members of the local council will be helping us to choose the winning design.

The closing date for the competition is Friday 13<sup>th</sup> September 2019, but you can bring your entries in at any time in the new school year. Please write your names and classes on the back of your entry and hand it in to the School Office, or a member of the Road Safety Team.

All of the information about this will be on the School Website, so you can check the details whenever you like.

We really hope that you can all get involved in this special project.

Mrs Ratley and the Road Safety Team (Charlotte, Oli H, Dom, Angus and Harry)
