

'Connections' is this year's theme

We invited friends and relatives who work in the STEM field to come into school and talk to us all about their jobs and what they do.

Forensic Scientist showing us what they need to wear at a crime scene.

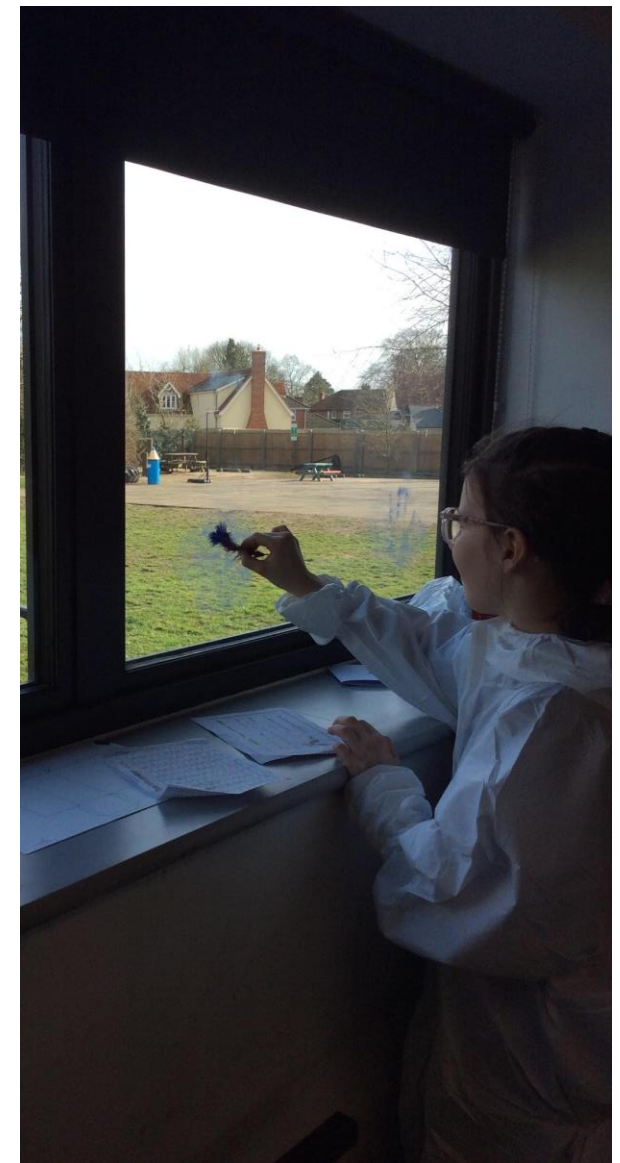

Discovering a crime scene

Inking our fingerprints

No two fingerprints are the same

Dusting for fingerprints

An engineer from British Sugar explaining the types of engineering – mechanical and electrical.

A particle physicist explaining how the Hadron collider works

A civil engineer showing the children how to test the strength of a bridge

A bank manager talking to Y5 & Y6 about money and how to save

Y1 testing objects that sink and float

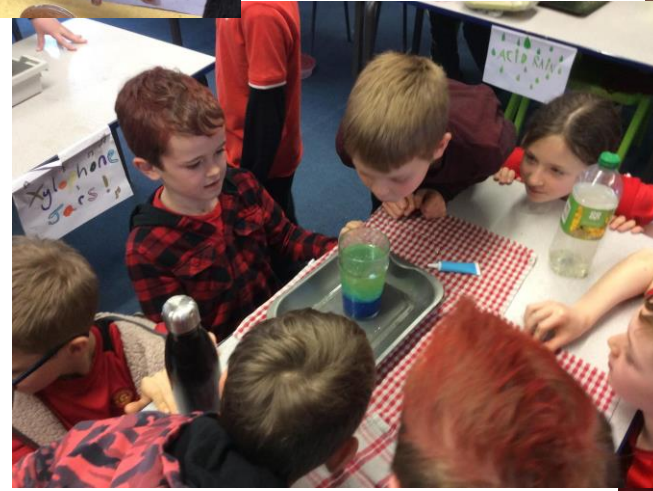

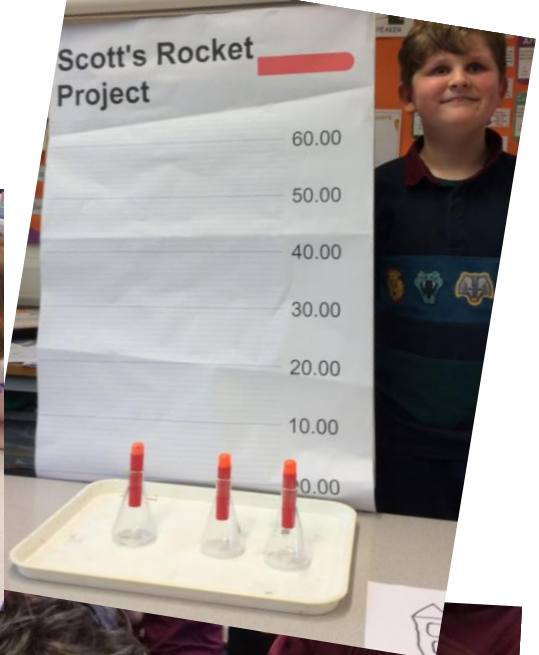

Y4 testing their bridges

YR Making their bridges

Welcome to Y5 & Y6 Science Exploratorium

A huge 'Thank You' to all our visitors for helping us make Science week come to life.
