

Y4 PLACE VALUE – counting in 25s and negative numbers

0	25	50	75	100	125	150	175	200	225	250	275	300	325	350	375	400	425	450	475	500
---	----	----	----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----

500	525	550	575	600	625	650	675	700	725	750	775	800	825	850	875	900	925	950	975	1000
-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	------

We get a repeating **pattern** when we count in 25s.

Multiples of 25 end with 0 or 5.

There are numbers below **zero**.

-5 -4 -3 -2 -1 0 1 2 3 4 5

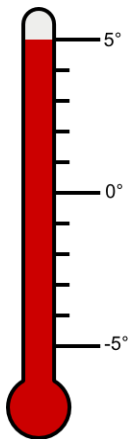

They are called **negative** numbers.

You might see negative numbers in a lift.

VOCABULARY

- multiple
- pattern
- sequence
- increase
- decrease
- negative
- minus
- zero
- thermometer
- temperature

The temperature on this thermometer is 5°C but if it **decreased** by 6 degrees the temperature would be -1°C.

$$5 - 6 = -1$$
