

It's VERY important to put digits in the correct column and make sure the columns are lined up.

We start on the right then move left and total each column...

start here

	Th	H	T	O
	5	4	7	1
+	2	2	0	3
	7	6	7	4

$$2436 + 152$$

Josh

The answer is 3956

Josh is incorrect. He has placed the hundreds in the thousands column.

	Th	H	T	O
	6	2	1	8
+		4	3	0
	6	6	4	8

When we add a **3-digit** number and a **4-digit** number we must remember to place the digits in the correct column.

VOCABULARY

- column
- add
- total
- calculation
- ones
- tens
- hundreds
- thousands

	Th	H	T	O
	1	3	4	4
+	1	3	2	
	2	6	6	4

$$1344 + 132 =$$

1000s	100s	10s	1s
